Grace & Yearning

Last Sunday, looking out at our beautiful Church, and listening to the reading from the Book of Nehemiah, I was suddenly overwhelmed with grace and yearning. The grace came, first of all, from the text itself. Taken by force from their home in Jerusalem into the kingdom of Babylon, the people of Israel had lived far from the center of their faith for 60 years. When, at last, they are given permission to return, under the governorship of Nehemiah, "his Excellency," and the Scribe, Ezra, they find the Temple desecrated and in ruins. For a week they work to clean it, gathering at last in the open air, on the steps of the Temple of Solomon, to hear the Law—the story of God's Covenant with their ancestors—which for so many years they had longed to hear in this place.

As I sat there, I could imagine the feelings of those refugees, home at last; I could imagine that moment, when, finally, after 60 years, they could profess their faith openly; I could imagine them standing on the stones of the Temple, the place of which their parents and grand-parents had spoken with tears of longing and loss. It is no wonder that the People wept, and had to be reminded that this was a time for rejoicing! Living, as we do, in a world filled with exiles and refugees—with people in flight from Syria or Sudan, from Iran or Tibet, from Cuba or Mexico—how can we not feel the poignant grace of this moment?

Yet, at the same time, listening to the story of that return, I also felt a deep yearning that we—the People of God at St. Joseph—might experience the same power and passion felt by those exiles, as they stood on the steps of the Temple. What would it be like, I thought, for us to gather at this altar *every week* as though we had been kept from this place for 60 years—as though the Word we hear and the Sacrament we share had been withdrawn from us by oppression and exile for the whole of our lives?

How different would we feel, coming into St. Joseph, if we were entering for the first time into this place our ancestors had built—a place we entered now only because the mercy of God had, at last, brought us back? In such a moment, what would matter most to us? It would not be, I think, the noise of the children around us or the politics of our leadership; it would not be the sound system or the messy grammar of the prayers. As we stood there, for the first time in 60 years, I think we would recall our parents, or their parents, who heard these words proclaimed, in the same place, so many years before. I think we would imagine our ancestors, as they took the Body and Blood of Christ into their hands and received it, just as we are doing now. We would recall, undoubtedly, the stories we had heard of life be-

fore exile, and remember the prayers we had prayed for freedom and for return during all those years. We would see each other, I imagine, with great compassion and a sense of something shared between us—for we would see, in each other, the companion who had been with us in exile, and who now, at last, celebrates with us at this altar. Feeling all of this, how could we keep from weeping, or shouting out?

It is, probably, impossible to retain the same intensity that was felt that first morning on the steps of the Temple, when exile was over and the People, at last, were home. It is clear from the history of Israel, that the zeal of the return soon gave way to weariness and legalism. Likewise, from our own experience, we know how familiarity can drain the color and flavor of a first experience. After all, what couple, 10 years into marriage, feels the same thrill as they felt in that first embrace? What student enters second semester, sophomore year in high school with the same kind of zeal and fire as she had on the first day of kindergarten? Who of us comes to the altar each week with quite the same sense of wonder and joy as we had at our First Communion?

Yet, if that *first* fervor is impossible to maintain, if we cannot remain passionate *in the same way*, is not something else still possible—a different type of zeal, a deeper kind of passion? For, in the end, no spark burns as hot as a well-tended fire; no tree grows as tall as when its roots are deep. Love, in its fullness, couples passion to patience, fireworks to faithfulness, the bright light of the moment with the constant beacon of every day. Boredom comes, not because we lack stimuli, but because we fail to let our passions mature and deepen. We fail to go deeper, and so our passion seems to blow away.

How many of us exile ourselves from the altar and the Word, because it seems boring or because we assume it will always be there? How many of us—our hearts snared by the foolishness of Church leaders or by the promises of excitement elsewhere—banish ourselves from the Word of God and the people whose lives we are given to share? My prayer is that we might find our way home from this exile, that we might know—in the echo of the Word and the touch of the Sacrament, in the presence of the Assembly and the movement of the Spirit—the love of the God who desires us and guides us, as Church, to one another.

Spend Time With a Best Friend

Every Friday morning from 7:30 to 11:00 EUCHARISTIC ADORATION is held in the Parish Center chapel. This is such a rewarding experience; a quite time for one-on-one union with Jesus. He is there to hear your concerns, your joys, your hopes and for you to hear Him. When you drop your children off at school or when you are out and about during the morning, think about stopping in even for a few minutes; it will be your best use of time that day. What's better than spending time with A BEST FRIEND!

Parish Blood Drive Success

Thank You for the role you played in making January 28th's blood drive a success. It was the best blood drive St Joseph's has had in two years with 45 registered donors! We really needed that success, given the very low blood supply. Because of you and your donors, blood will be there for patients who really need it, when they need it- we can't accomplish our mission without you!

Our staff was able to collect **35 units of blood**, which will help to save the lives of up to **105 local patients.** These patients and their families will be so grateful for the life-sustaining resource you took the time to give. We were notified after this blood drive of two patients who needed a significant number of blood units:

A 43 yr-old male, Dx: cancer-related organ transplant at Swedish First Hill, **AB POSITIVE**

Needed: 14 units of Red Blood Cells, 14 units of Plasma, 2 units of Platelets

A 39 yr-old female with pregnancy-related bleeding at Swedish First Hill, **O POSITIVE**

Needed: 10 units red blood cells, 6 units of plasma, 1 unit of platelets

Here is a list of our 2013 Blood Drives for those who like to plan ahead:

Monday, April 15th Monday, June 17th Monday, August 12th Monday, October 14th Monday, December 9th

Thanks again for taking the time to donate - we are bringing our inventory back up, slowly but surely, and we can't do it without you.

St. Vincent de Paul Society

Back pain is no fun. And Jane required surgery to help repair a damaged disk in her spine. The pain caused her to stop working as a medical assistant. After a while, she lost her health insurance. With her three-year-old daughter, she lived in subsidized housing, received a \$360 a month disability payment and \$44 in food stamps—not very much.

The good news was surgery to correct her back pain went well. The problem was she needed a new bed with a stiffer mattress to help ensure her recovery went well. The broken down bed she slept in long since had seen its better days, and nights.

Thanks to the contributions you make to our St. Vincent de Paul collection the first Sunday of each month, we were able to get her a new bed and box spring. We even included a new set of sheets and pillow cases. Jane was very grateful—and so are we for your continued support.

EcoJustice

For the next few weeks, we will share findings and recommendations from the Pontifical Academy of Sciences 2011 report on the impacts of glacial retreat resulting from climate change.

The report echoed Pope Benedict XVI's 2010 World Day of Peace Message saying, "...if we want justice and peace, we must protect the habitat that sustains us."

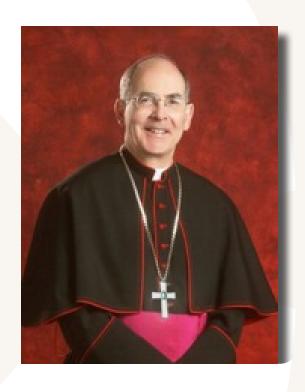

It warns that, "Failure to mitigate climate change will violate our duty to the vulnerable of the Earth, including those dependent on the water supply of mountain glaciers, and those facing rising sea level and stronger storm surges. Our duty includes the duty to help vulnerable communities adapt to changes that cannot be mitigated." (more at catholicclimatecovenant.org)
